OPTIMIZING TREATMENT STRATEGIES FOR LOCALIZED AND ADVANCED GENITOURINARY MALIGNANCIES

**Fox Chase
Cancer Center**
Temple Health

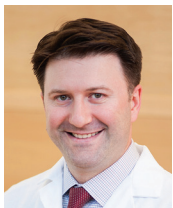

Join us for this in-person educational program, offered by Fox Chase Cancer Center and the Temple Health Office for Continuing Medical Education. The program will cover the latest strategies for optimally managing localized and advanced bladder, kidney and prostate cancer presented by the Fox Chase Cancer Center genitourinary oncology team—nationally recognized physicians specializing in urology, radiation therapy, and medical oncology.

OBJECTIVES:

After participating in this educational programs, learners should be able to:

- Explain the newest surgical techniques for bladder, kidney and prostate cancers.
- Explain the newest data and clinical trials in radiation options for advanced GU malignancies.
- Describe new medications and treatment options for advanced bladder, kidney and prostate cancers.

PROGRAM DIRECTORS:

Alexander Kutikov, MD, FACS

Chair and Professor, Department of Urology
Roberta R. Scheller Chair in Urologic Oncology

Daniel M. Geynisman, MD

Chief, Division of Genitourinary Medical Oncology
Associate Professor, Department of Hematology/Oncology
