Temple Health refers to the health, education and research activities carried out by the affiliates of Temple University Health System (TUHS) and by the Lewis Katz School of Medicine at Temple University. TUHS neither provides nor controls the provision of health care. All health care is provided by its member organizations or independent health care providers affiliated with TUHS member organizations. Each TUHS member organization is owned and operated pursuant to its governing documents.

Non-discrimination notice: It is the policy of Fox Chase Cancer Center, that there shall be no exclusion from, or participation in, and no one denied the benefits of, the delivery of quality medical care on the basis of race, ethnicity, religion, sexual orientation, gender, gender identity/expression, disability, age, ancestry, color, national origin, physical ability, level of education, or source of payment.

Community Speakers Bureau

*Office of Community Outreach
and Engagement*

How much do good health habits affect your risk for cancer?

More than you might think. Research has shown that staying away from tobacco, eating healthy, getting active and being safe in the sun can lower a person's risk of cancer. Routine cancer screening raises the chances of finding certain cancers early, when they are most likely to be cured.

Are you part of a group that would like to know more about cancer and cancer prevention?

The Office of Community Outreach and Engagement offers one hour education sessions where you will learn about:

- cancer risk and easy ways to lower your risk
- ways to prevent and screen for cancer
- common types of cancer and treatment choices

The sessions also offer:

- tips for getting and staying healthy
- ways to add more physical activity into your day
- tools to make healthy food choices

Our sessions are *free*, and are offered in English or Spanish by our trained health educators. We can tailor the session to the needs of your group. Sessions can be conducted in person or virtually (online).

What are the goals of the sessions?

- To raise awareness about cancer topics
- To raise awareness and use of prevention and screening
- To offer information that helps people make the best choices to improve the health and wellness of themselves and their families

What topics are offered?

The list of topics we can present include:

- Learn about cancer risk, screening, treatment choices, and tips for staying healthy. This session can focus on any of these topics:
 - Bladder Cancer
 - Breast Cancer
 - Cervical Cancer
 - Colorectal Cancer
 - Human papillomavirus (HPV)
 - Liver Cancer
 - Lung Cancer
 - Ovarian Cancer
 - Prostate Cancer
 - Reducing Your Cancer Risk
 - Skin Cancer
- Understanding Cancer Research: Learn more about how advances in cancer care and treatment are made through clinical trials, and other research.

Please choose a topic:

- ☐ Breast Cancer
- ☐ Cervical Cancer
- ☐ Colorectal Cancer
- ☐ Human papillomavirus (HPV)
- ☐ Liver Cancer
- ☐ Lung Cancer
- ☐ Ovarian Cancer
- ☐ Prostate Cancer
- ☐ Skin Cancer
- ☐ Understanding Cancer Research

Please choose a language:

- ☐ English
- ☐ Spanish

Do you have any of the following?

- ☐ Ability to use platforms such as Teams for virtual presentations
- ☐ Computer Access
- ☐ Wi-Fi
- ☐ Projector
- ☐ Screen

How many people do you expect to attend? _____

IMPORTANT REMINDERS

- Please note that we need at least 3-4 weeks notice to fill your request.
- We are not able to guarantee a speaker for every request.
