## Program Description

The 26th Radiation Oncology Conference provides state-of-the-art information related to current and evolving techniques and treatment options for patients with cancer. Sessions are designed to assist participants in integrating new knowledge into clinical practice pertaining to the entire trajectory of radiation treatment, multimodality treatment of site specific cancers, patient assessment, side effect management and quality of life initiatives.

## Target Audience

- Physicians, nurses, and advanced practice providers practicing in a wide variety of settings, who wish to broaden their horizons related to the care of patients with cancer.
- Radiation oncology therapists and medical dosimetrists wishing to update their knowledge about current trends and new developments in radiation treatment.

## Successful Completion of this Program

Electronic submission of the evaluation form through Eeds.

## Continuing Education Credits

### Physicians

Temple Health is accredited by the Pennsylvania Medical Society to provide continuing medical education for physicians. Temple Health designates this live activity for a maximum of *14 AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the educational activity.

### Nurses

Fox Chase Cancer Center is approved as a provider of nursing continuing professional development by the Pennsylvania State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Available Credits (September 22 & 23 7.0 contact hours/day)

### Radiation Therapists

Application has been made for continuing education credits to the American Society of Radiologic Technologists (ASRT). Approval is pending. (Approximately 14.0 credits)

### Medical Dosimetrists

Application has been made for continuing education credits to the Medical Dosimetrists Certificate Board (MCDB). Approval is pending. (Approximately 14.0 credits)

## Objectives

- Describe the latest clinical research and technological advances in the multimodality treatment of cancer
- Integrate recent advances in clinical practice and technology into the management of patients receiving radiation therapy
- Develop a comprehensive care plan to monitor and manage patients receiving radiation and concurrent treatments for various types of cancer
- Outline the interdisciplinary roles in care management of the oncology patient during radiotherapy treatment
- Explore clinical interventions which address the physical, emotional, and psychosocial needs of cancer patients and their families

## General Information

- Parking is FREE at Fox Chase Cancer Center. Park in the East or West Garage on campus & follow the signage to the FCCC Center Building Auditorium.
- **Cancellation & Refund Policy:** Fox Chase Cancer Center (FCCC) reserves the right to cancel or postpone any course due to unforeseen circumstances. In the event of cancellations or postponement by FCCC, the Center will fully refund your registration fee, but is not responsible for any related costs, charges or expenses to participants, including cancellation costs incurred by airlines/travel agencies.
